

SPS: Ph. Adv Vs. Intensity

- Need to include horizontal phase adv. into reponse matrix and compare local sources to the “vertical only”

RHIC Experiments

Parameter	Unit	SPS	Au	Protons
E_{inj}	[GeV]	26	10	27
RMS σ_z	[cm]	30-40	120	80
Intensity	$\times 10^9$	5-140	0.2-2.5	20-140
